

LOS ALTOS ACADEMY OF ENGINEERING

ADOPT-AN-ENGINEER PROGRAM

pr@lasv.org

✉ 15325 E. Los Robles Ave. Hacienda Heights, CA 91745 ☎ (626) 934-5514

This year, the Los Altos Academy of Engineering has decided to participate in FIRST Robotic Competition. This will mark a shift from the annual Electrathons that the team had previously participated in. The FIRST Robotic Competition will pit two alliances of three teams and their robots against each other to complete a common objective. Information will be given at the kickoff event on January 9th, and will be hosted at USC. Teams will then have 6 weeks in order to build, program, and test a robot for the regional competition. Since LAAE will be competing in the Orange County Regional hosted by Valencia High School in Placentia, California on March 30 - April 2, 2016, we will need to raise approximately \$8,000. Starting at \$10, you can support us by "adopting" a Los Altos High School engineer. As an "Adopt-An-Engineer" sponsor, we will include your personal message of fifteen words or less in the upcoming newsletter. Our newsletters contain information regarding our recent activities and events. As a result of your generosity, we will be able to fund this year's project and travel expenses.
